

12th International Congress on Machining

UTIS

1-3 NOVEMBER 2024

Juju Premier Palace Hotel Kemer, Antalya- TÜRKİYE

We invite you to the **12th UTIS International Congress on Machining**, held from November 1-3, 2024, at Juju Premier Palace Hotel Kemer, Antalya, TÜRKİYE. This congress will provide an open and engaging platform for researchers, academicians, industry representatives, entrepreneurs, students, and anyone interested in machining.

UTIS is a platform where machining experts from industry and academia meet and discuss the latest developments in their fields. From the very beginning, UTIS has developed in such a way that the synergy of the participants creates an atmosphere in which several new focus groups and R&D projects emerge. The **12th UTIS** will take this synergy further for more collaborations and innovative project ideas.

Various events will be held, such as panels, industry sessions, open forums, and focus group workshops to enhance networking opportunities.

Furthermore, in honor of his invaluable contributions to the success of UTIS 2024, the UTIS Steering Committee has decided to dedicate the first day of the congress, November 1, 2024, to Prof. Dr. Yusuf Altıntaş to commemorate his 70th birthday. We also invite you to be part of this special day.

We would be delighted to see you at the **12th UTIS**.

Chair

Prof. Dr. İ. Etem SAKLAKOĞLU
