www.utis.tc

“SHARE THE SYNERGY OF MACHINING”

UTIS, which will be held for the 12th time this year, is a platform that brings together machining experts from industry and academia and discusses current developments and projects. Thanks to this synergy created during UTIS, new projects, studies, and partnerships are formed. UTIS attracts more attention every year from international participants. Participants are expected from Canada, America, Germany, Spain, Russia, Japan, England, Taiwan, China, Iran, Hungary, Qatar, and Greece at the 12th UTIS.

WHY YOUR COMPANY SHOULD BE INVOLVED IN UTIS

If you are a company that develops high-tech products in machining, implements advanced applications, and has business models that make a difference, UTIS is one of the most suitable platforms where you can share these skills. It offers areas where you can spend one-on-one time with your customers, through the conference speech you will give in the main hall, the products you will display in the foyer area, or the presentations and demonstrations you will make in the working classes.

PROJECT and R&D COOPERATION

During UTIS, you can create projects and R&D collaborations with national and international experts and have the opportunity to develop high-tech products and applications.

*UTIS Steering Committee Representative,
I. Etem SAKLAKOĞLU*
